Yes, the fact that I need a second operation and the fact that I'm here, I'm wondering, you know, the thought's crossed my mind, I don't want to throw out accusations, but I wonder if there was some sort of mistake in the procedure and this might be a sort of diversion tactic. That could be due to other things, but I don't want to I just want to be honest. The thought has crossed my mind. Yeah, because it sounds like something of a mystery to you, almost, why you're down here, and quite what went wrong there with the surgery. Exactly, and I understand things happen, don't get me wrong. It's just, like you said, "Why am I here?" Right. Almost like he might have been trying to cover up a little bit something that had gone wrong in the surgery and this is like, "OK, now you need to go down and see the smoking cessation people." C Well, you know, to me it doesn't seem like too far-fetched a situation. It happens all the time. Well, you know, to me it doesn't seem like too far-fetched a situation. It happens all the time. don't see how it applies to me. 17 I Yeah. 22 C Well, I use it as a release. I use it to get away from the stress of m	
profession. Of people I deal with, you know. I don't want to go	ı c
through my life stressed out or angry and it relaxes me at the end the day.	Of
23 I Right. So in the busyness of your everyday life this is something	SR
that's important to you.	
24 C Yes, sir, it is. Absolutely. It's something I value as a quality of my life.	
25 I Right. And what other circumstances do you enjoy smoking in?	Q
26 C Social	
27 I You talked a little about work. Although, what sort of work do yo	u Q (SR only
do? I don't quite know.	set up for
	Q)
28 C I'm in finance.	
29 I You're in finance, right. That's quite a high pressure sort of	CR
environment.	
30 C It is. Perfection is expected	
31 I Yes	NC
32 C And it's something I can't always deliver. I'll be honest.	
33 I Sure	NC
34 C But when it doesn't get delivered, then I get told. They come dow on me hard, management.	'n
35 I And the smoking	NC
36 C And I want to smoke more.	
37 I Yes, I was just going to say, and the smoking fits in there as a sort release valve.	of CR
38 C Absolutely. Absolutely. Not only that, you know, I hang out with	
my friends who smoke, and it kind of gives us privacy. No one	
wants to be around smokers, as you probably know, if they don't	
smoke, so we can sit out there and puff and talk and it helps.	
39 I And so the social side is also important to you.	SR
40 C Oh sure, sure. You know, like with the new laws, smoking laws	
saying you can't smoke in a bar, that's created a whole other social	al
circle outside the bar where you have to go to smoke, so	
41 I I see, and so	NC
42 C Almost another place to hang out now.	
43 I And there's another opportunity to be with kindred folk.	CR
44 C Absolutely. Like-minded people. Not feeling like you're being	
judged for being a smoker.	

45	I	And so how did you feel about coming down here today to talk	Q
		about all of this?	
46	С	A little chagrined, a little chagrined, I'll be honest. Like I said

47	I	Sure	NC
